

Forge Engineering Design Solutions

Environmental Policy

Forge Engineering Design Solutions Ltd recognises the importance of environmental protection and is committed to operating its business responsibly and in compliance with all legal requirements relating to the consultancy services it provides to the construction industry.

It is Forge Engineering Design Solutions Ltd's declared policy to operate with and to maintain good relations with all regulatory bodies.

It is the Forge Engineering Design Solutions Ltd's objective to carry out all measures reasonably practicable to meet, exceed or develop all necessary or desirable requirements and to continually improve environmental performance.

Our commitment:

- Assessing and regularly re-assessing the environmental effects of the Organisation's activities
- Training of employees in environmental issues
- Minimising the production of waste
- Minimising material wastage
- Minimising energy wastage
- Promoting the use of recyclable and renewable materials
- Reducing and/or limiting the production of pollutants to water, land and air
- Controlling noise emissions from operations
- Minimising the risk to the general public and employees from operations and activities undertaken by the Organisation
- Communicating the Environmental Policy to all employees, suppliers and sub-contractors and is made available to the public.
